SUMMARY

Motivated and hardworking Computer Science Engineering student with a strong interest in web development and building user-friendly digital solutions. Skilled in HTML, CSS, and basic JavaScript, with hands-on experience in developing responsive web interfaces and simple projects. Familiar with version control tools like Git and GitHub, and comfortable working with development environments such as Visual Studio Code.

A quick learner with strong problem-solving abilities, attention to detail, and a passion for continuously improving technical skills. Able to adapt to fast-paced environments, collaborate effectively in team settings, and take initiative in independent projects. Eager to apply academic knowledge to real-world applications and contribute to innovative and impactful projects as a web development intern or entry-level software developer.

EXPERIENCE

Software Development Intern

Cloud Data Networks / Alcheminds Solutions Pvt.Ltd., (23rd Jul 2026 – 23rd Jan 2027)

- Worked on developing and maintenance of mobile applications for Android and iOS using NativeScript, TypeScript, XML, CSS, and JavaScript.
- Worked on the RMA Mobile App, contributing to the development and enhancement of its Android and iOS versions.
- Contributed to building and enhancing application modules, including UI development, theme customization, authentication, and notification features.
- Designed and implemented responsive and user-friendly interfaces with a focus on consistent UI/UX across Android and iOS platforms.
- Assisted in debugging, testing, and resolving applications issues, ensuring smooth functionality and improved application performance.
- Worked with Git and GitHub for branch management, code commits, pull requests, and team-based development workflows.
- Collaborated with the development team during code reviews, feature implementation, testing, and bug fixing.
- Gained hands-on experience with real-world software development practices, mobile applications development, debugging, and collaborative development tools.

EDUCATION AND TRAINING

Bachelor of Technology (B. Tech)
Computer Science Engineering
Annamacharya Institute of Science and Technology, Tirupati
CGPA: 8.0/10 (till 2-2)
Year: 2024-2028

PROJECTS

Login Page UI Design (Web Development Project)

- Designed and developed a responsive login interface using HTML and CSS, focusing on clean layout and modern UI design.
- Implemented multiple authentication options (Google, Apple, and Phone) with visually aligned icons and user-friendly buttons.
- Created a structured layout with input fields, divider section, and call-to-action buttons to enhance user experience.
- Applied CSS styling techniques such as Flexbox, box-shadow, border-radius, and hover effects for an interactive and visually appealing design.
- Ensured proper alignment, spacing, and responsiveness to maintain consistency across different screen sizes.
- Demonstrated attention to detail and understanding of UI/UX principles in frontend development.

Modern Landing Page UI Design (Web Development Project)

- Designed and developed a visually appealing and responsive landing page using HTML and CSS with a modern dark-themed interface.
- Created a structured layout including a navigation bar, hero section, feature highlights, and call-to-action sections to enhance user engagement.
- Implemented Flexbox for responsive alignment and layout management across different sections of the webpage.
- Applied advanced CSS styling techniques such as background images, typography customization, spacing, borders, and hover-ready button designs.
- Focused on UI/UX principles by ensuring clean design, readability, and intuitive navigation.
- Built reusable design patterns such as cards, buttons, and sections to maintain consistency across the page.
- Demonstrated creativity and attention to detail in designing a professional, modern web interface suitable for real-world applications.

SKILLS

- HTML & CSS
- Basic JavaScript
- Python
- C Programming
- MySQL
- Git & GitHub
- VS Code
- Problem Solving
- Team Collaboration

INTERESTS

- Technology and learning skills
- cooking skills
- Problem solving and Logical Thinking
- Learning new Technologies
- Building Projects
- Web Development
- VS Code
- Continuous learning and skill Development
- Team Collaboration
